

IF conflicting claims confuse you when you come to choose a tire—hold fast to this thought:

The joint judgment of a majority of consumers and motor car manufacturers is that Goodyear Tires give better, longer service.

Goodyear sales to both of these two great markets are much larger than those of any other tire.

NOTICE

European war demands have caused a shortage in the world's supply of materials used in the manufacture of White Tread Tires.

The color of Goodyear Tires may ultimately be changed from White to Black.

Our supply of the required materials assures the greater portion of our 1916 season's output of tires being furnished with White Treads.

JUSTICE HUGHES IS LOOMING UP FOR NOMINATION

(Continued from page one)

a dozen Republican candidates who hope for the support of the territory's delegation and will have every reason to use their influence toward seating six instead of two.

Committeeman Rice, strongly supported by Senator Smoot of Utah, made a successful fight in the committee to get the words in the call "without the right to vote" eliminated, thus establishing the voting power for Hawaii's delegation if it is seated.

The meeting of the national committee brought out almost a conclave of the various "favorite sons," possibilities, "those-also-mentioned" and others in Washington. Senator Weeks of Massachusetts, ex-Senator Burton of Ohio, Senator Cummins of Iowa, Senator Borah of Idaho, ex-Senator Root of New York and former Vice-president Fairbanks of Indiana were in evidence around the New Willard, where the meeting was held and the politicians commingled.

Demonstrations for Hughes.
The night before the meeting of the national committee, a great dinner was held at the New Willard. It was at this dinner that a remarkable and significant demonstration in favor of Hughes occurred, showing the way the former governor of New York is regarded. As various speakers glowingly dwelt on Republican prospects in general and the need for "naming a winner," cries and shouts broke out spontaneously all around the table, "Hughes! Hughes!"

"And this at a time when avowed and receptive candidates were sitting all around the banquet board!" comments Mr. Rice.

The banquet was given by the League of Republican Clubs of which John Hays Hammond is president. Hammond, it is understood, was one of the backers of San Francisco for the convention, at least when the big cities were flashing their hundred-thousand dollar checks. "Frisco" was signed by Hammond.

Senator Borah of Idaho made a powerful impression at the banquet. His speech was considered by many the best of those there.

Second Ballot for Hughes?

He says the first ballot of the big convention will very probably find the delegates split many ways, with favorite sons and others dividing the vote, but that on the second ballot there may be a landslide for Hughes. Yet even though mainland politicians talk seriously of this possibility, Committeeman Rice thinks the Hawaii delegation should go uninstructed and without individual pledges of any members as to what they will do. Personally, he does not express himself in favor of any particular candidate, and emphasizes that Hawaii has good friends in all the leading candidates and should not brusquely decline to listen to the claims of any.

Australia's wheat yield will approximate 145,000,000 bushels.

In fact, Hawaii has friends everywhere.

where in Washington. I tell you, the trip of the congressional party here did a world of good," says Rice. "Why, even such Democrats as Bascom Slomp and Saunders of Virginia, will do anything they can for us and Carter Glass, also of Virginia, is the same way. I believe we can count on them to remember Hawaii's situation in the tariff fight, if there is a fight.

"Though the Republicans in Congress worked and voted against the emergency war tax extension, and though they will undoubtedly take some raps at retention of the sugar tariff, they all say in Washington the present tariff will be retained. The Republicans will make what political capital is possible out of the Democratic shift, but all realize that it is a necessary measure."

Mr. Rice thinks that President Wilson is losing strength in the country at large. He expects, however, that Mr. Wilson will be renominated in the Democratic convention, though the Bryan element is active and likely to make a bitter fight and cause a serious division. Naturally Rice is sanguine of Republican success, though he freely admits the necessity of picking a strong man from among the many aspirants. Hughes, he says, steadfastly refuses to allow his name to be mentioned, but the convention may overwhelm such opposition, and in fact, Hughes' refusals are steadily making him stronger.

Honolulu Claim Not Pressed.
Hawaii did not press the invitation for the G. O. P. convention to meet in Honolulu next summer. San Francisco was very keen to get the big conclave and as such friends of Hawaii as Congressman Julius Kahn were working hard for San Francisco. Rice joined in boosting for San Francisco. Several western and coast states also worked for the Exposition City, but the first ballot showed Chicago 30, San Francisco 13, St. Louis 7 and Philadelphia 2, Chicago winning at once.

The Republican platform which will be promulgated for the next national campaign will be a distinctly progressive document, says Rice. Contrary to precedent, the party out of power is going to hold its convention first. The Republicans will assemble on June 7, while a week later the Democrats will go into session.

"And we will give the Democratic party a platform of up-to-date progressive measures it will have to meet," Rice prophesies.

LETTERS HERE CONFIRM IRWIN SITE PURCHASE

Letters which have been received here by the trustees of the Irwin Estate confirm the purchase by the federal government of the Irwin site for the new government building. It is stated that the papers covering the transfer of the site to the government are now being prepared and that they will be signed within a short time. The government will pay \$200,000 for the site, but this will not include any improvements. Within 60 days after notice is given by the government that it wants the land, buildings must be removed at the expense of the owners.

Men are idle, who could be better employed? So said Socrates. No man can give his best work along a line for which he is not fitted.

Are you sure that you are in the work you are best fitted for? If you are you can make yourself more fit; if you are not, you can put yourself on the right track.
